Determination of the Knights of Labor.
To the Right Honorable President of the United States:
Sir: I am enclosing herewith a copy of the letter which I addressed to you on the 21st instant, in which I requested that you would furnish me with a copy of the same. I will be pleased to receive your earliest favorable answer.

LIBERTY NO. 2.
Unveiling of Sutro's Statue on Mount Olympus Yesterday.

SAN FRANCISCO, November 24th.—The ceremonies attendant upon the dedication of Adolph Sutro's Liberty statue on Mount Olympus this morning came off an uneventful affair. At 10 o'clock the battery stationed upon the mount thundered forth a salute to Liberty, and the procession, consisting of Mayor Pond and the State Board of Education, of Mechanics, Messrs. R. P. Hansen, J. E. Vargan, W. J. Toole, J. O. Johnson, H. Palmer and Hon. W. A. Kearney. The Commissioners were immediately escorted to the top of the hill, where a platform had been erected for the ceremony. The statue was then hoisted up by means of a special train from San Francisco, and were received by some of the most prominent men in the county, among whom were Hon. Paribell, N. S. G. W., Toole, D. C. Clegg, J. E. Vargan, Senator W. V. Moore, Colonel G. W. Granniss, M. A. Dore and Solomon Heydenfeldt; General Howard and other military officers, members of the Legislature, the press, headed by the Presidio band, began the ascent of the mountain, which stands at the head of Seventeenth street, a few hundred yards from the Twin Peaks.

The statue, a granite model of Sutro's masterpiece in New York Harbor, is of colossal size and faces the east, looking down over the great city. It was designed to typify the triumph of light over darkness.

The public were invited to come and see that the statue will have a land they needed, although there would be some delay in securing the Fort Reservation from the Government.

The party left for San Cruz at 2 o'clock, at which place they will stay a part of tomorrow, and from there will go south.

Congress Crocker and his Committee, that the public will have a land they needed, although there would be some delay in securing the Fort Reservation from the Government.

DAILY RECORD-UNION

FRIDAY, NOVEMBER 25, 1887

The RECORD-UNION is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world. Outside of San Francisco it has no competitor, in point of numbers, in its home and general circulation throughout the coast.

SAN FRANCISCO AGENCIES.

The paper is for sale at the following places: L. P. Fisher, Room 21, Merchants' Exchange, who is also Sole Advertising Agent for San Francisco, Sacramento, Stockton, etc. News Stands: Market-street Ferry and junction of Market and Sacramento street News Stands.

Also, for sale on all trains leaving and coming into Sacramento.

TO-DAY'S LEADING NEWS TOPICS.

It is said that another noted European Anarchist agitator is about to come to this country. Yale defeated Harvard in a great football game yesterday.

Roscoe Conkling treated three fast heats at Postoffice Park yesterday. General Grey will resign the French Presidency, and Billot will form a Cabinet, if possible.

Several buildings in St. Helena, Napa county, were destroyed by fire yesterday.

Fast time was made at Stockton yesterday by one and two-year-old colts.

Sutro's gift statue of Liberty was unveiled on Mount Olympus, San Francisco, yesterday.

THE DUTY OF THE HOUR.

It is reported that an Eastern man, viewing certain products of Butte county, on exhibition at the rooms of the State Board of Trade, said if he could be positively assured that the products really grew in Butte county he would go there and invest. That is to say, to put it into plain English, Northern and Central California have been so abominably lied about that the falsehood "sticks," and Eastern people in large numbers have been brought to believe that the north and central sections are arid, cheerless, sterile and undesirable, and they will not even go into those regions to examine until insured against disappointment.

It is full time, and past, that the people of the north and center should awake and set about nailing the falsehoods and misrepresentations current concerning their heritage. We do not charge the south as a whole with having misrepresented the north, but it is true that certain of their real estate dealers and unscrupulous agents have done so, and with effect. This is demonstrable to the intelligence of any one who takes pains to meet Eastern tourists and converse with them. They make no concealment of the fact that it has been impressed upon them that Northern California is to be avoided because of cold, snow, floods, sterility, and "general cussedness," as one intelligent tourist remarked recently.

We have labored constantly to prevent the cropping out of sectional jealousies; we have stood for the south, and shall, and rejoice in its prosperity, and hope it will be still more enlarged. We have constantly borne testimony, and shall so continue, to the fact that at the north Southern California has not been misrepresented, nor detractions intended concerning her. But we regret that very many of the press at the south continue to receive these assurances and testimonies, and that not a few of them still continue to refer contemptuously to the north, and to express themselves in a tone that must give tourists erroneous impressions concerning this section.

There is but one course to pursue to counteract these influences: not retaliation, for that would be to adopt a policy condemned in others; but to go to work with a vigor and persistency heretofore unknown, and disburse money with the liberality known at the south, to make the truth concerning the northern and central parts of California widely known; to publish it abroad so diligently, and so fortified, that it will be impossible for immendo, falsehood or cunning to prevail against it. For Northern and Central Californians that is the duty of the hour.

FRANCE.

The news is that President Grey is about to resign, and that he is now preparing his final message to the French Senate and Chamber. At this distance from the scene of trouble we cannot grasp all the details, and the American mind is confused in endeavoring to understand why President Grey should vacate his post. His son-in-law, Wilson, has prostituted one of the departments to base uses, and peddled its power for coin. Mr. Grey has shielded him so far as he could on his daughter's behalf, but no one has attached to the venerable Executive any stigma of dishonesty, or laid at his door any charge of corruption. He stands to-day as fair before France as in his prime when he marched in the forefront of events leading up to the establishment of the republic.

But the Radicals, Socialists and Monarchs have made common cause and crushed his Ministry, and he appears to be unable to call another together. It is improbable that the republicans who voted with the extremists for the overthrow of the Rouvier Ministry contemplated any such possibility as the deposition of the President. The vote—369 to 191—refusing to declare his office vacant, shows that the majority of the Deputies do not look with favor upon the schemes of the Royalists, and that, it seems to us, should give Mr. Grey the support he so much needs. But the brave old patriot has been broken down, and we are told that the evidences of his hurt he feels are painfully manifest, and that in this crisis of his life his emotions overpower him. And no wonder. He is a far-seeing man; in the precedent his resignation sets he foresees the possible overthrow of the Republic to which he has so devotedly attached. If it is to become the rule that the President is to vacate his office whenever the turbulent Chamber of Deputies see fit to rebuke him, the usefulness of the office will be destroyed, and France will be kept in a state of unrest until the wearied people consent to accept a monarchy. Just what will be the immediate outcome of Grey's resignation no man can foretell. In the attempt to avert another President there is likelihood of a serious conflict in the convention of the Senate and the Chamber, and the result may be confusion and possibly anarchy. The Monarchs will loose no opportunity to foment discord and to seize upon the slightest pretext to proclaim a ruler; their chief safety of the Republic, so far as that is concerned, is in the contention between the several distinct houses who demand the right to don royal robes.

STILL STUBBORN.

The prospect for the erection of the greatly needed warehouse for the storage of the State text-books, book stock, etc., typewriters, etc., etc., still depends upon the whim of the State Treasurer. We have

the published statement of the Governor that "every spare room in the Capitol is held under tribute for the care of the books, which have cost the State immense sums of money, and that a warehouse for the books is imperatively needed." It is a very strange condition in government when a subordinate official can veto the expressed will of the people, and reverse the command of their representative body. It is more deplorable still to know that this usurpation of authority is exercised at the expense of the people, to punish another official for not agreeing with the usurper upon a matter foreign to the subject. When the Legislature gave the Treasurer, with others, power to approve or reject plans and details for public buildings, the intention, as plainly manifested upon the face of the law, was to put a check upon any perversion of the appropriation, or to plans being adopted that would entail expense in excess of the appropriation, and to prevent weak and insufficient work being foisted upon the State, and to insure the proper carrying out of the will of the Legislature. Here, however we have the case of an official misusing his power to make the plans accord with the legislative design, and by that misuse actually defeating and nullifying the design of the law-making body. To a dozen people or more the Treasurer declared that he refused approval of the warehouse plans only because the Governor declined to agree to the scheme of the additional jury mills; but he saw fit to permit this to be denied in his name, though the charge is incontestably true and can be established by unimpeachable testimony. The excuse was then made that he, the Treasurer did not deem it wise to erect the building first, because the books, stock etc., could be stored in the basement of the Capitol; secondly, because the sum appropriated is not large enough. Either of these reasons is as bad as the first excuse. The Treasurer has not been commissioned to reverse the judgement of the Legislature; when he does so and defeats it, he usurps authority, and it may be, lays himself open to impeachment. It is base misuse of his office, and would never be ventured upon by a man of self-respecting, modest, or who entertains a due sense of the solemnity of an oath of office and its binding obligation upon him to obey the laws. The Treasurer of the State of California has the right to do so and defeats it, he usurps authority, and it may be, lays himself open to impeachment. It is base misuse of his office, and would never be ventured upon by a man of self-respecting, modest, or who entertains a due sense of the solemnity of an oath of office and its binding obligation upon him to obey the laws. The Treasurer of the State of California has the right to do so and defeats it, he usurps authority, and it may be, lays himself open to impeachment. Weinstock & Lubin—Overcoats.

Red House—Saturday's sale.

Wanted—Servant girl.

Wanted—Canvassers.

LOCAL INTELLIGENCE.

Thanksgiving at Y. M. C. A.
The second annual dinner given to young men, members of the Young Men's Christian Association, who are away from home, by the Ladies' Central Committee of the local Association in the rooms on Sixth street, it was given yesterday, and was a success. The ladies, undaunted, and unequalled in their efforts. The committee in charge consisted of Mrs. Palmer Clark, Mrs. Billings, Mrs. Hoffman, Mrs. Stoddard, Mrs. Piper, Mrs. Hembree, Mrs. Bassett, Mrs. Peck, Mrs. Zimmerman, Mrs. Johnson and Miss E. B. Parker, and all those they discharged their duties. They were assisted by several young ladies. The floral decorations were in the hands of Mrs. Alsp and others, being put in hand. The tables were elegant and tempting to the most fastidious appetite. At half-past three about seventy young men, from different States and five foreign countries, sat down to dinner, and two hours around the social board. By the side of each plate was the following greeting:

I afford you very much pleasure to extend to you, on behalf of the Ladies' Central Committee of the Young Men's Christian Association, a most hearty welcome to our second annual Thanksgiving Day, and I hope you will have a happy time. When we say we are glad to see you but faintly express our feelings. We are indeed glad to see you, and we are well as from lands beyond the seas. We take you by the hand, and for the sake of the loved ones at home, we wish you a happy day. We wish you to realize that here you are at home, and that you are as welcome as in your own country. We are glad to see you, the father, the brothers are absent, but we will endeavor to fill their places, and help you to have a happy time. May one meeting this day bind us together more firmly, and help us all to love him more fervently with every year which we name we welcome him. The dear Lord bless you all. I remain your sincere friend and adherer,
Moses H. Herkoff
General Secretary.

Appended is the menu: Oyster soup, roasting turkey with cranberry sauce, chicken pie, boiled ham, mashed potato, sweet turnips, green corn, jelly, pickles, celery, apple pie, mince pie, squash pie, lemon pie, cakes, tea, coffee, apples, oranges, nuts, etc.

An original hymn, composed for the occasion, was sung. After dinner the guests scattered over the room, and amused themselves in various ways till half past 7, when an intermission was made, and the program was given, in which Mrs. C. M. Mayer, Misses Cooke, A. McCormick, E. Richmond, W. S. Case and C. C. Cooley took part. A large number of the young men present, and of the help the Association had been to them, in various ways. At the close evening worship was conducted by W. S. Bassett.

The Ball Game.

Yesterday was a very disagreeable day for a ball game, and there was but a small number present at the contest at Snowflake Park. The weather was chilly, and most of the spectators had to leave their seats and walk around to keep warm. The diamond was also in a bad condition, owing to the dust that was being blown about by the wind, and the game record was not expected, though many occupied reserved seats. The game lasted about two hours, and was very interesting throughout. The home-run was the feature. He handled the ball against the base of the padlock, and was almost around to the home plate before the fielder reached the ball. The players of the Blues, held down their bats in a singular manner, and batted well. Newberg, H. H., the catcher of the nines, did very good work. Anderson, of the Altas, occupied the box for a time, and proves to have some very decided talents. All of the members of the club who play baseball know how made the poorest score of the lot. Reed, of the Reds, pitched a good game, but six hits were being scored against him. He pitched a game for the Altas about as well as he could. With practice, it is believed that he will soon achieve notoriety as a twirler, and will be engaged by the professional nines. McLaughlin of the Altas, played at the base home and his team won it. Had lots of fun. The different clubs were distinguished by their caps. The Reds wore white, and red caps, and the Blues white and blue caps. The new rules under the new rules, was unimpaired by Clay Chipman, who gave general satisfaction. The contest resulted in a victory for the Reds by a score of 8 to 10, and an inning to spare.

Death of John H. Carroll.

John H. Carroll, who has been ill for the past few weeks from general failing health and a consequent combination of diseases, died quite suddenly and unexpectedly last evening while en route from San Francisco to this city. He went to San Francisco about two weeks since, hoping that by change of air and a quiet treatment he would be benefited. He did not improve, however, and it was considered best that he return to Sacramento. His physicians thought he could do so without injury, and he was sent by Dr. J. W. B. Moore, and daughters Minnie and Flora, started home on last evening's train. When at about Dixon he apparently went into a quiet sleep, but it was soon discovered that he was dead. His wife, and the life had quietly gone out. Upon arrival of the train his remains were conveyed to his late residence, on H Street.

Departure for Washington.

Senator Stanford and party, who came up in his private car on Wednesday evening, left for Washington on the mail train yesterday. During the forenoon, Mr. Stanford, accompanied by Division Superintendent Wright, General Manager of the Western and Eastern Can Building, visited all the railroad shops and the grounds on which the present extensive works are situated. Mr. Stanford, and Wright, as well as the other officers of the company, examined the progress of the work, and the first stage of the building was completed.

The first stage was completed.

The Placer County Railroad.

The extension of the Shingle Springs railroad to Placer City, the county seat of El Dorado county is being

being rapidly advanced during the past short time. The American Government had done but little for him, but China gave him a good deal of help.

He pitched a game for the Altas about as well as he could. With practice,

it is believed that he will soon

achieve notoriety as a twirler, and will be engaged by the professional nines.

McLaughlin of the Altas, played at the base home and his team won it. Had lots of fun. The different clubs were distinguished by their caps. The Reds wore white, and red caps, and the Blues white and blue caps. The new rules under the new rules, was unimpaired by Clay Chipman, who gave general satisfaction.

The contest resulted in a victory for the Reds by a score of 8 to 10, and an
